Default of Interest on Savannah Bonds.

NEW YORK Oct 31.—The Express says it is probable the interest on the bonds of the city of Savannah due to-morrow will not be paid, no provision having yet been made therefor and funds. This is a sad case particularly in view of the fact that the credit of the city has hitherto been so good but every one will understand the cause and if default is made it will no doubt be but temporary. During the rage of the yellow fever the city officials were unable to collect taxes.

Naturalization Frauds.

U. S. District Attorney Bliss called upon Mr Jones clerk of common pleas to-day and saying he had undoubted proofs of numerous frauds in making naturalization papers asked permission to have the records for the whole year examined. This was refused.

WASHINGTON CITY.

The Situation in South Carolina.

CHICAGO Oct. 30.—The Tribune's Washington dispatch says General Sherman denies that the War Department has reports from Gen Ruger that there are unnecessary troops in South Carolina. General Sherman expresses great confidence in the discretion of General Ruger whom he says will do nothing to provoke bad blood. The army is in the South not to protect one class more than another but to enforce obedience and respect to law, suppress violence and allow every man to vote, and will only interfere when a breach of the peace is threatened. Col Edwards a prominent South Carolinian, has just made a speech there in which he said the Democratic party intended to resist the power of the governor of the state and disregard the President's proclamation no matter what the consequences might be. He said: "We know our rights and are determined to maintain them come what may despite Grant's muskets and bayonets. To colored Republicans he said: "You are told we are not in earnest about the refusal to rent our lands to Republicans who vote against us but let me tell you now we were never more determined in any purpose of our lives. We are desperately in earnest. We have taken and subscribed to a solemn oath before God to rent no land to any one who votes the Republican ticket at the next election to employ no laborer—carpenter, blacksmith or anything else—who don't vote with us and to make no advance of food or permit any one to occupy our houses or premises who votes the radical ticket. We know what we are talking about. Colored people will starve but we will not. Now is your last time. Become Democrats or you are ruined for our resolutions we have sworn to and I mean business."

Tilden Mounted Base Ball Clubs.

Tilden and Wade Hampton have discovered a novel way for avoiding the President's proclamation in South Carolina. A formal obedience to the command to disband rifle clubs has been rendered but these clubs have been reorganized under the curious title of "Tilden's Mounted Base Ball Clubs," "Riding Clubs", Social Circles, Benevolent Associations," etc.

Republican Prospects Bright.

CHICAGO, Oct 30.—A Tribune's Washington special says information received by the Republican Congressional commission, makes the committee very confident of the election of Hayes & Wheeler. Within the last few days detailed reports received from the central committee of the several States contain assuring details, which furnish a basis of confident hopes of the general committee. Judge Edmunds, secretary of this committee, is much more confident of dividing the Southern electoral vote than most Northern Republicans are. He is certain of South Carolina, and is very confident of North Carolina, Florida and Louisiana. Judge Settle's friends reassert their confidence in a Republican victory. In Florida there has been no general attempt to intimidate negroes and desperate Republican factions there have become united. There is also a large Cuban vote there that is certainly Republican. The naturalized Cubans number 6 000. As to Louisiana, Senator West is confident Hayes and Wheeler will carry the State which gives an undoubted Republican majority of 30,000 on a fair vote and the Republican factions are now all united. Intimidation is to be expected in some of the northern counties, but Republicans are confident that with unity in New Orleans and in the absence of violence, all the southern counties will go for Hayes and Wheeler. The latest Indiana news shows the Republicans are very confident of carrying even that State. Old Ben Wade says Ohio will give Hayes 20,000. Reports give excellent grounds for belief that Connecticut and New Jersey will both go Republican. The latter is quite certain, if frauds are kept down in Jersey City and Hoboken. Of Connecticut, Republicans feel reasonably assured, so that with those States certain the Republican committee is confident of success even without New York but every day since the registration has been completed in New York city the confidence of the Republicans in their ability to carry the State increases. Registration has been nearly 20 000 less than the Democrats had predicted. Fraudulent registry has been so closely watched, that danger from repeating is greatly decreased and the committee expects to reduce Tilden's majority in the city to 40 000. If this is done, the committee has no doubt whatever of carrying the State. It is reported here from South Carolina that the meeting of so called northern born residents are an invention and that Northern people really are excluded from such meetings. A protest has recently been received here signed by Bishop Lynch and 52 alleged Northerners. It is ascertained the whole 52 were straight Democrats all of whom resided in the State before the war, many being in the rebel army. This is the Lynch who in 1861 published an address to the North declaring that South Carolina did not propose to rebel against the Government, and was peaceable and orderly when batteries were already prepared to destroy Sumter.

August Belmont and the Syndicate.

A special to the Chicago Tribune from Washington says August Belmont in a speech yesterday desires any one to produce proof that there is any apprehension among the present Syndicate here or in Europe that the election of Tilden would have an unfavorable effect on further negotiation of the 4½ per cent loan. If August Belmont makes official application to the proper quarters, he will be referred to his associates in the American branch of the Syndicate, Morton Bliss & Co, and to other American members of the Syndicate, for the information he desires. One significant circumstance in connection with recent information received by the Treasury Department for the Rothschilds branch of the Syndicate in London, is that this information has come directly to the Treasury Department at Washington by cable from London without intervention of the chairman of the Democratic National Committee in New York who happens to be Rothschild's agent.

Another "Disinterested" Endorsement.

A card from Tennessee published here to-day by Tilden's literary bureau endorses Tilden's claims, and protests that the Southern people have no expectation or hope of being reimbursed for these claims. The absurdity of this card is manifest when the name of H. T. Riddle appears among all the other Democratic Tennessee Congressmen. Riddle is the author of the famous Riddle bill which has figured prominently in the campaign, and which proposed compensation to all citizens for use or occupation of their property by the United States during the war and provided that the affidavit of a claimant supported by competent testimony of one reputable citizen should be sufficient proof to establish such use or occupation. Loyalty is not made a condition. Riddle has been stumping Tennessee declaring if Tilden is elected every person who has any claims of any description for use of even a picket fence will be made happy.

Federal Appointment.

WASHINGTON, Oct. 31.—Simon H. Lucas was to-day appointed gauger for New Mexico.

Intimidation in Baltimore.

Two citizens of Baltimore have sent to the Department of Justice a letter stating, it is currently reported that the sheriff of that city through his deputies is contemplating the arrest of a sufficient number of U. S. deputy marshals on or before next Tuesday with the evident intention of weakening the force of the power and presence of these officers on election day and that fear of insufficient protection from the U. S. government in case of the arrest of said deputy marshals has produced a profound sensation among Republicans which makes it exceedingly difficult to procure a sufficient number of volunteers in some localities for the position of deputy marshals on election day.

Interview of High Functionaries.

Lieut Gen Sheridan who arrived this morning with Secretary Cameron and Gen Sherman called at the executive mansion before the Cabinet meeting. They were closeted with the President for nearly two hours. Afterwards Gens Sherman and Sheridan had a lengthy conference at the head quarters of the army.

Postal Cards.

The number of postal cards issued during the month ending to-day was 23 116 000 being an increase of 2,977,500 or nearly 15 per cent over the issues of October last year. This is the largest issue occurring in any one month since the introduction of the cards, some three years ago.

THE EASTERN QUESTION.

LONDON Oct 30.—A Belgrade dispatch to the Daily Telegraph announces that Prince Milan will take command of the army to-day.

A special from Belgrade to the Daily News reports that of the 10 000 Russians engaged in the fight at Djunis 700 were killed. Turkish batteries from Djunis are shelling the camp of the Servians and the latter are quitting it for safety. Minister Ristics is left in charge of the government at Belgrade. He is empowered to treat for peace or armistice if opportunity arises. It is thought he will seize the opportunity to make peace and thus free the government from the influence of Russia.

LONDON Oct. 30.—The Standard's special from Belgrade reports that the Turks captured 110 cannon and a large quantity of muskets and ammunition in their last battle at Djunis.

The Standard's Belgrade correspondent does not single out the artillery as the most prominent in the defection on that occasion but states that the Servian army which was reduced to such a condition that the men were barely able to crawl openly declared it would fight no longer and abandoned its position en masse. Tchernayeff telegraphed to Prince Milan imploring him to come and prevent the army from crumbling entirely. The Prince conferred with Kartzoff five times during the night. It is impossible to make a stand at Cuprigia. At Deligrad, Paganja, Parathin and along the road the wildest confusion prevails. The wounded, the wagons, staff and deserters are mixed in an indiscriminate mass. The Circassians have appeared before Paganja.

PARIS Oct. 31.—The Estafette has a report that military law has been proclaimed in all the Russian districts of Kiev, Odessa, Kharkow and Caucasus where lodgings for 80,000 troops are being prepared.

LONDON Oct 31.—The Standard's Vienna correspondent reports that according to an official telegram the terms of the armistice are being finally agreed upon. Their publication is hourly expected.

The Post gives prominence to the following article in official form: We entertain hopes grounded on assurance that the question of an armistice is settled and that a conference of the powers will shortly be held. We are not without warrant in saying the Czar has not only practically agreed to the Turkish proposal of armistice, but also waives objection to Turkish participation in the conference. This assembly will therefore, we assume take place with the admission of Turkey as one of the assembled powers. The deliberation with respect to reforms will be chiefly conducted by the six powers. The result will be submitted to Turkey. Although the latter forms an integral part of the European system her representative will only take a seat on occasions when results are to be declared. All the great powers except Austria have assented to this course and it is of no small importance that Russia has relieved us of difficulties which she seemed to interpose.

The Russian Ultimatum.

ST PETERSBURG Oct. 31.—To-day's official Gazette states that Gen Ignatieff Russian ambassador has been instructed to demand the Porte's acceptance within 48 hours of an armistice and suspension of hostilities otherwise diplomatic relations between Russia and Turkey will be broken off and Gen Ignatieff with the personelle of the embassy will leave Constantinople. This ultimatum of Russia to Turkey was dispatched from Livadia, where the Russian court is sojourning, to Constantinople yesterday.

PARIS, Oct. 31.—Advices from Constantinople last night say that the armistice was not signed but its signature was regarded as probable.

LONDON Oct. 31.—The Standard's dispatch from Belgrade says an order has been read in the streets throughout the city calling on all able bodied men to report themselves for immediate service. The Turks lack transportation and can, therefore advance but slowly.

It is rumored that Italy and Austria have offered mediation. A Vienna telegram to the same journal says it is an established fact that before Russia's ultimatum upset all calculations the ambassadors at Constantinople telegraphed on Monday to their governments that the armistice was secured. It is believed in official quarters that Russia, in consequence of the sudden advance of the Turks no longer wished to have a line of demarcation between the contending parties during the armistice fixed by the positions they might hold at the beginning of the armistice, and that she has therefore taken this sudden step.

A Paris correspondent to the Standard telegraphs it is stated the Powers have sent a note to Greece strongly urging her not to complicate the situation by assuming a warlike attitude.

A dispatch from Constantinople to the Standard says it is asserted on excellent authority that the Sultan in order to give proof of his liberal sentiments, has finally determined to make Medham Pasha Grand Vizier shortly.

LONDON Oct. 31.—The Times says editorially it is impossible not to observe that we have notice that Germany abides and will abide by its alliance with Russia, although it will struggle to keep on good terms with other powers. The government of the Emperor's nephew and friend will remain most closely knit with the government at Berlin.

ST. PETERSBURG Oct. 31.—Intelligence received from Belgrade, states that Prince Milan's departure thence for the army has given rise to a conflict between the Servian civil and military authorities. The Turks are marching upon Kruchevatz and General Tchernayeff is operating with the object of covering that place.

A Times correspondent at Belgrade telegraphs there is no longer any doubt that Servia is now at the feet of Russia or mercy of Turkey. Some officers are under orders to proceed to Kragujevatz which is the arsenal of Servia. The Turks however ought to have passed Kragujevatz before reinforcements could arrive there; if they delay further resistance by Russian volunteers is probable. Information however has been received that Russian officers received reinforcements to the amount of 20 000 men and some batteries of artillery. The Circassian cavalry are burning villages near Paratchin and Cuprigia.

A Vienna correspondent says the announcement that the armistice has been settled is premature. The Porte was only expected to give a definite answer on Monday. There is or anyhow was Sunday evening ground to believe that the reply will be fully satisfactory, that is that the Porte will accept Russia's proposition. Other powers have given adhesion to the conditions for prolonging the armistice proposed by Russia. England holds aloof. Turkey is thus left without a supporter of their views and as the adhesion of powers to Russia's views in regard to prolonging the armistice shows that the prolongation is really to mean a 3 months armistice it may be relied upon with tolerable certainty. There is a rumor in circulation that the admission of Turkey's representative to the conference has been suggested with a view to satisfy England and the suggestion has been approved at Livadia.

The Belgrade official journal publishes an eager appeal to Russia for immediate help.

LONDON Oct 31.—The Times announces that Gen Schouvaloff at the express desire of the Czar has declared to Lord Beaconsfield that the Russian general government utterly repudiates the recent offensive article in the Goulos newspaper.

VIENNA Oct. 31.—The Political Correspondence newspaper publishes a telegram from St. Petersburg stating the order to Gen Ignatieff to present Russia's ultimatum to the Porte was dispatched by the Czar direct to Constantinople last evening and that the Czar was induced to take this step by recent events in Servia and Turkey's continuing the war notwithstanding the negotiations pending for an armistice.

BRUSSELS Oct. 31.—Le Nord hopes the European powers will support Russia's demand and that the armistice will be settled but adds the Porte's dilatory tactics do not facilitate definitive pacification and will force the powers to redouble their firmness and energy on the question of guarantees.

A telegram from Belgrade says the consternation caused by the news of the fall of Djunis has been replaced by great activity and a strong reaction in favor of continuing the struggle.

Minister Ristics in conversation to-day declared Djunis was not Servia and that the government was determined to resist to the last even though abandoned by all Europe. He stated the fall of Djunis was owing to a reinforcement of [illegible] battalions and 18 heavy siege guns received by the Turks from Kiel. He said the Turks had been further reinforced by Dervish Pasha's army which arrived before Djavor for the Montenegrin frontier. Prince Milan has arrived at Paratchin. Tchernayeff's army is at Deligrad and [illegible]. The command is half way between Djunis and Kragujevatz.

A dispatch dated Constantinople to-night states that a cabinet council was held to-day and the ambassadors met at Gen Ignatieff's residence. According to reports current this evening there is some disagreement relative to the details of the armistice.

BY ATLANTIC CABLE.

Dissatisfied with Emperor William's Speech.

LONDON Oct 31.—The French and English papers are dissatisfied with the emperor of Germany's strictures about European affairs in his speech at the opening of the session of the Imperial Parliament of Germany at Berlin yesterday. The French papers accept it as a direct menace to France.

The Standard's Vienna special dispatch reports that Emperor William's speech at the opening of the Reichstag produced an unfavorable feeling in Vienna and is thought to indicate that the triple alliance will [illegible]

Fearful Panic at the Chinese Theater—21 Killed.

SAN FRANCISCO, Oct. 31.—At five minutes to 12 last night, a panic occurred in the Royal Chinese theater on the north side of Jackson, between Kearny and Dupont streets. A stampede followed which resulted in the death of 21 Chinamen, and the wounding of 15 or 20 more. The entrance to the theater is through a long narrow corridor at the end of which are five or six steps leading to a door through which the audience has to pass. A few feet back of and parallel with this door was a partition built of inch boards and reaching half way to the ceiling. While the performance was going on some one in the audience raised a cry of fire. The alarm was groundless, but it created a panic and a great portion of those in the auditorium and in the gallery which has a stairway running down to the front door started for the only means of exit. Some of the foremost fellows were pushed down the steps leading to the corridor, and those who came after them fell pell mell on them. The surging crowd pushed on those carrying the partition with them, and in a few minutes hundreds of Chinamen were piled on top of each other screaming, moaning and crying in Chinese and English. In a few minutes after the accident occurred a few officers rushed to the scene and attempted to render assistance, but their efforts were in vain for awhile, as those who were uninjured refused to render any assistance or stand back. A reinforcement of police under Capt Douglas came up in a short time and cleared a spot around which lay the fallen men. The officers worked with a will, removed the debris and in a little while commenced taking out the unfortunates who had been crushed by those who fell on them. As soon as taken out they were carried to the street and laid on the side walk. The fresh air revived a few but the majority were dead. After they had all been taken out, it was discovered that twenty one were dead and about fifteen wounded. Some of the wounded were taken away by friends and others were taken to the hospital. The dead were taken to the morgue. While the dead and wounded were being removed the police endeavored to press Chinamen into the service of removing the injured and those whose life had fled but they refused to help. The actors, fully aware of what had occurred, continued playing on the stage as if nothing had happened, and it was not until Captain Douglas ordered them to cease playing that they put a stop to the performance.

The Lick Estate.

SAN FRANCISCO, Oct 31.—John H. Lick, by his attorneys McAllister and Bergin to-day filed in the probate court his petition to be appointed administrator of the estate of his father the late James Lick setting forth that he is the only son and sole heir of deceased.

The petition of John H. Lick for letters of administration on his father's estate creates a good deal of comment and the general opinion seems to be that it is the beginning of a long and expensive litigation which may result in serious impairment of the bequests of the trust deed if not in the breaking of that instrument. It is reported on good authority that for some time past the trustees have been endeavoring to compromise with John Lick by giving him $350 000 in addition to the $150,000 provided for him by the terms of the trust deed which amount was to be deducted from the residue left to the Pioneers and Academy of Sciences after paying other bequests but it is now evident that negotiations are broken off and the question of the validity of the trust deeds will be brought out in the courts. There is also a rumor that John Lick has in his possession or knows of the existence of a certain will made by his father some years ago in which a very large sum was left to him and considerable amounts to other relatives and that that testament will be brought forward in opposition to the deed.

TILDEN.

Reasons Why a Democrat who Supported Him in 1874 Cannot Support Him in 1876.

The Partnership of Tilden and Tweed.

A Terrible Arraignment of that Bogus Reformer.

How He Conspired to Rob the People of New York.

Demas Barnes of the Brooklyn Argus in a letter to the Ohio State Journal, analyzes the character and pretensions of Mr Tilden in a way to open the eyes of the country. Mr. Barnes as is well known, has been hitherto an unwavering Democrat, and he opens the letter referred to with a protestation of his attachment to the Democratic party, and an avowal of his having supported Tilden for Governor in 1874. Then he proceeds with the matter in hand, examining Tilden in detail as follows:

1. The charges now made against Mr Tilden were not made in 1874. The Democrats of this State did not know of Mr Tilden's connection with the Northwestern railroad ring. I never heard of the facts until I read them in the New York Express a Democratic newspaper in May, 1876. I did not know that Mr Tilden had swindled the government by issuing illegal currency in Michigan, until I saw an account of the transaction in the Cincinnati Enquirer, in June, 1876. I did not know that Tilden had defrauded the government on the taxes due from his income until the month of August, 1876 of the judgment rendered against him in the case of the Galena and Chicago Railroad Company stockholders, in 1865, of the judgment by the same court for his land taxes due to the State of Michigan in 1873, and of this congressional "Relief" bill from penalties and taxes, I can say the same thing.

2. Mr Tilden was not elected governor of this State by 53,000 majority. His majority was only 38 411 on a total vote of over 700,000. Over one-third of this majority, 12,906, was obtained in this city by the help of the Argus. Outside of New York and Brooklyn, Tilden was beaten in the State by 17 077 majority.

The people of the State had been robbed on their canals and on the new capitol building at Albany, the city of New York had been robbed by the Tweed ring, and the people of Brooklyn had been robbed by an equally infamous ring composed of men of both parties. The financial panic had occurred the previous year. Grant was planning for a third term. In the latter part of 1871 Tilden had repudiated Tweed's gang and came out as a reformer. He was the candidate for governor in 1874. When the elections that year came off, you well know that the tidal wave, swelled by anti-Cæsarism, unemployed labor, prostrate industries and the cry for a change, commenced in Oregon, swept across Indiana, Ohio, New York, Connecticut, Massachusetts, and ended in the granite mountains of New Hampshire. It revolutionized all these States, made Allen governor of Ohio; Tilden governor of New York by change of 14 per cent of the vote, and Gaston governor of Massachusetts by a change of 32 per cent of its vote. In one year Gaston was turned out of office in Massachusetts, Allen in Ohio, and Tilden's State ticket was beaten outside of New York over 30,000. That city gave a Democratic majority which saved the State to the party by 14 000. So much for Tilden's election as governor.

3. Has he made a good governor? When inaugurated he took an oath "to obey the constitution, enforce the laws and protect the interests of the people of the State." He knew, because a senatorial committee appointed by his predecessor, Governor Dix had so reported, that millions of dollars had been stolen from the tax payers by the men who had charge of erecting a new State capitol building. He did not enforce the laws. No legal action had been commenced against these plunderers. The same is true of the plunderers of the city of Brooklyn. In each case the men whom he said should be in State prison, and whom he was elected to duly punish, have become his fast friends by well known arrangements, and instead of being on their road to prison, we found them shouting for Tilden for President in and out of the St Louis convention. Perhaps these are the acts of a "good governor."

The Constitution of our State says:

"The legislature shall not pass a private or local bill in any of the following cases: Granting to any corporation association or individual the right to lay down railroad tracks. The legislature shall pass general laws providing for the cases enumerated," etc.

Gov Tilden was interested in a street railway in the city of New York. A bill to extend the railroad by special legislation in violation of the constitution, which he had sworn to obey, was gotten through the legislature by the well-known use of money. Gov. Tilden signed the bill June 17, 1875. Of it the New York World, a Democratic newspaper, said:

"It is an eternal disgrace to the State of New York that such dishonest practices are allowed to continue.

"Members are bought up on these bills as you would buy a pound of beef!

"The bill known as the Greenwich street Elevated Railroad bill was passed by the promise of $100 each for sixty five votes (a majority) in the assembly.

"A noted lobbyist formerly a public printer, (Van Benthuysen) held the stakes $10 000, to pay Barber (Tweed and Tilden's former lobbyist) when the bill became a law."

Perhaps this was the act of a "good governor."

A bill adding about $50 000 per annum to the sheriff's fees of this county—the office was before worth $400 000 per annum—was signed by Gov Tilden after knowing all the facts and being opposed by most attorneys acquainted with them. It was a bill in the interest of a ring who control delegates. Perhaps this was an act for which the 70 000 voters of Brooklyn ought to call Mr Tilden a "good governor."

Mr Wardell said in June last that Gov Tilden has appointed some of the worst men to office who ever disgraced a State. A man connected with the insurance department of the State was a defaulter of State funds to the amount of $50 000. The facts were investigated and laid before the Governor by a friend. He begged that the facts might be suppressed on the grounds that the defaulter was his most efficient agent in getting up Presidential delegates. He subsequently nominated this man to a lucrative position but the Senate refused to confirm the nomination. In 1875 the city of Brooklyn indicted tried and convicted several charity commissioners for robbing the people of large sums of money. The ring men requested Gov Tilden to appoint one of these convicts, who is a valuable ally at election times to a valuable position. Other men with reference to party of course protested against the appointment. The appointment was however made by the Governor and the appointee is now drawing a salary from the State Treasury. Perhaps these are acts which becoming a good Governor and a man who is using reform capital.

Gov Tilden lays claim to reducing the debt and taxes of the State. In the first place an executive cannot do this; in the second place the changes in these items which did occur in 1875 were the result of legislation by a previous Legislature and by an amendment of the constitution adopted in 1874; and in the third place the State taxes were never so high in the history of the State into $568 000 as they are the present year. The annual State taxes for several years have been as follows:

1872	$2 610 000
1873	2 191 000
1874	2 226 000
1875	2,255 000
1876	3,824 000

Perhaps this is financial economy and reform worth boasting of by a good governor.

In eighteen months Gov Tilden has pardoned 180 criminals and restored 70 to citizenship.

I have confined myself to a few main points in Mr Tilden's gubernatorial career and to succinctly answering the statements in the text of this communication. But I will not close without giving other reasons why honest citizens and particularly honest Democrats conscientiously changed their opinions of Mr Tilden and now oppose his elevation to the Presidency.

To our surprise we first found that Gov Tilden opposed the execution of the laws and reform in every locality where ring men controlled party machinery and presidential delegates. We found that he struck at Lord in Rochester, Dennison in Syracuse, and for a time at Tweed in New York, because the political machinery of party in those places had passed into reform hands. Far greater public robbers than Lord or Belden were rioting in Brooklyn and Albany, but they controlled delegates and conventions, and the Governor refused to lay his hands upon them. In fact, these same men have been Tilden delegates to each State convention since the alliance was entered into.

THE RELEASE OF TWEED.

We then found that in November last the friends and partners of Tweed and his gang had mysteriously all become Tilden men. In the early part of December Tweed was [illegible] from prison. The official in whose charge Tweed was is responsible to the Governor for his place, for Tweed's body, or for a $6 000,000 judgment, from which Tweed absconded. No action in any way has been taken against the sheriff. It was then believed, and the belief was crystalized into a very general conviction, that a bargain had been made to give Tilden the Presidential nomination in consideration for Tweed's release and executive protection to his pals.

TILDEN AND TWEED'S PARTNERSHIP.

Tilden's past career was then looked into. It was found that he and Tweed had been fellow officers in the Tammany [illegible] for many years. That Tilden was [illegible] of the State Democratic committee from 1868 to 1872, during the triumphant career of the New York city ring. That in 1868, under the auspices of Tilden and Tweed, 37,000 fraudulent ballots were counted in the city of New York, resulting in elevating the previous ring mayor of that city into the gubernatorial chair of the State. It was found that Chairman Tilden admitted Tweed's [illegible] of [illegible] outlaws and fugitives to the State convention of 1870. It was found that the proofs of the ring robbers was published by the New York Times, July 20, 1871. That an indignation meeting was held on September 4, 1871. That Tilden was still sustaining T[illegible] and [illegible] attend the meeting. The World of the 5th of September, pronounced the meeting a failure [illegible] eminent citizens like [illegible] Tilden stood aloof from it. [illegible]

It was found that Tilden and the ring held a conference on September 15th [illegible] after the meeting, at which [illegible] says of himself [illegible] Mr. Connolly (comptroller, in whose [illegible] the ship papers were kept) to [illegible] that the storm would pass over him and [illegible] others. The partnership papers were destroyed, Connolly [illegible] and set sail for [illegible] the vouchers, and not till [illegible] over [illegible] about [illegible]

It was [illegible] Tilden's relatives and [illegible] the [illegible] and Gandes, were always in [illegible] large jobs. It has recently [illegible] out that from 1866 to 1871, the [illegible] only paid taxes to Tweed's city government on [illegible] ranging from $5,000 per annum to $50,000 per annum. These [illegible] were deemed good evidences of mutual interest and partnership [illegible]

FRAUDULENT INCOME RETURNS.

It was then discovered that while honest Democrats had been criticising Mr. Lincoln's administration for not hurrying up troops and making short work of the war, and had [illegible] shouldering their muskets, as over 40 000 of them did, and paying their [illegible] as every loyal man did, that one of the wealthiest men in the party, Samuel J. Tilden, was discouraging enlistments, hiding away his property and making false returns of his income. This was an insult to the loyalty and honor of the party which no man of self respect can submit to on the part of a candidate for the Presidency.

I have not referred to Tilden's notes on the currency question. Excuse the space I have occupied. We oppose Mr. Tilden because we have found him to be an insincere man, a trickster, a hypocrite, a swindler, a traitor and a perjurer.

"A DOUGLAS TO THE FRAY."

ROSEBURG, Oct. 20, 1876.

TO THE EDITOR OF THE OREGONIAN:

Nothing could have been more opportune than the publishing of the speech of Col. R. G. Ingersoll. It found an echo in the hearts of the men whose souls were for the Union during the dark hours of '61-2. It fired anew the enthusiasm that was already great in this county for Hayes, Wheeler and Williams. Since last I wrote you, we have been favored with speeches by Senator Mitchell, Judge Kelsay, Gov Gibbs, and others,—something new by each one, while the unterrified have harped on corruption and fraud. They told us at the beginning of the campaign that we would have to stand on the defensive, that theirs would be an aggressive campaign. But "the best laid schemes of mice and men," etc. They find more than enough to do to defend the double riding of LaFayette Lane and explain the inconsistencies of Tilden's record. Judge Kelsay gave them food for reflection by showing, in a very able manner, the inconsistent record of the Democratic party on the constitutional questions prated on so much by them.

The conduct of the Democratic Legislature was such in promoting the Bourbon element that one of the distinguished members of that body—a Democrat—said at this place, on his way home that he had enough of the Democratic party and henceforth he could be found heart and hand with the Republicans and would vote for Dick Williams this November. Every day makes new converts for Williams, and ten to one every man who votes for Williams will go for Hayes and Wheeler. This county will go right by 350 majority, and could the election be postponed until Jan. 1, 1877, at the present rate of increase for the Republicans we would carry it by 700. All along the line can be heard the shout of victory, soon to be ours. The stragglers are returning to their ports; no desertion, no wavering, no faltering but with a solid front we are bearing down upon the disheartened enemy. Hayes is our general, Wheeler his aide and under their leadership we will storm the works Nov 7 and bag Tilden and the unterrified rag baby and all.

POLITICAL HOROSCOPES.

We have given heretofore a few of the various tables which the arithmetical prophets have put forth as exhibits of the probable electoral vote. In order that readers of the OREGONIAN may have an opportunity of choosing a table according to any fancy that may happen to seize them, or that they may, if they have a taste for such speculations have ample material out of which to construct a table exactly to their liking, we present below three or four more of these horoscopes. PACIFIC COAST COAL.

[illegible] importation of coal into San Francisco during the present year, up to October [illegible] counted, in round numbers, to [illegible] tons, of which 200,000 tons was [illegible] countries, mainly Aus[illegible] British Columbia. The Pacific [illegible] having out British Columbia, fur[illegible] Seattle, 62,000 tons; Coos [illegible] 00 tons, and Bellingham Bay 14,-

[illegible] portion of Washington Territory [illegible] is underlaid with a very superior quality of coal, both for steam and [illegible] purposes, but the mining of it [illegible] comparatively undeveloped, partly [illegible] of the large amount of capital [illegible] necessary in all such enterprises. [illegible] is another and more serious ob[illegible], to-wit: the competition of Aus[illegible]. A great number of ships arrive at San Francisco every year from Sydney in [illegible]. These vessels can afford to carry [illegible] ballast, for nothing, provided the [illegible] will pay the cost of putting it on and discharging it; the alternative [illegible] for the master to pay for the ballast, [illegible] it on board and discharge it at his own expense. The result is, that vast amounts of Australian coal are brought to San Francisco, and California is overstocked with it at a certain season of every year, and the price is run down below what it can be mined and delivered for at any American port on the Pacific coast. This cause has reduced the price to a point 40 per cent. below what it was in 1875.

The duty on foreign coal is, if we mistake not, 75 cents per ton. This duty, which is at least a partial protection to the miners of Oregon and Washington Territory, was put on by the Republican party just before, and during the early stages of, the rebellion. Several leading [illegible] papers, following the lead of [illegible] e for a long [illegible] s a great out[illegible] coal. We presume the [illegible] is upon the mines of Newcastle and Sydney, and the repeal demanded in their interest. In obedience to this demand Gen. Morrison, Chairman of the Ways and Means Committee in the last session of the House of Representatives, proposed a bill revising the tariff generally, one of the provisions of which *takes off the duty on coal.* The bill was not reported by the committee, being withheld at the request of Democrats who thought it would destroy utterly the chances of the Confederates and their allies for carrying Pennsylvania. But as soon as the election is over, it will undoubtedly be pushed through the House.

How will Washington Territory fare under such legislation? How will Oregon take it? Mr. Lane will support it. A free trade Democrat and one of the most obedient tools of the Democratic caucus, he cannot oppose it without giving the lie to his creed and defying the managers of his party, which he will never do.

Mr. Judson of Washington Territory, if elected, will naturally go with Lane, against the interests of his constituency. Voters of Oregon, voters of Washington Territory, bear these things in mind next Tuesday.

It is impossible to say with any degree of certainty just how much of the reports given out by the party committees before election concerning the prospects, is sincere and how much is intended for effect at the polls. Before and after the election, with these bodies, are different things. But it would seem that considerable allowance might be made on this score in reading the rose-colored reports we now receive from such sources, and still leave enough truth to elect all the candidates beyond the possibility of a doubt.

It may be that the enforcement of the registration law in San Francisco against those who have failed to comply with its provisions, deprives a good many honest voters of the privileges to which they would be entitled if they had complied. This view seems to have influenced public sentiment till quite a breeze has been raised over it. But after all, if the laws are not to be enforced, what are they for? The chances are that the right is on the side of the Supervisor.

It turns out that the protest of "Northern-born" residents of South Carolina, against the sending of troops down there to preserve order, was, to all practical purposes, a sham and a fraud. Instead of being Northern people with Northern feelings, as the intention was to have it understood, they are, to a man Democrats, died in the wool, and old *ante bellum* residents of the State.

The *Standard* thinks to break down the republicans in this election by declaring that Senator "Mitchell" has "assumed control" of the campaign. That is too thin. The Republicans of Oregon have, on several occasions demonstrated that to *assume* control of them is a very different thing from actually controlling them.

A card from Mr. John S. Bozarth, will be found in this paper, in which he respectfully declines to be a candidate on the Democratic ticket for member of the Washington Territory legislature.

TILDEN AND THE ELECTION FRAUDS.

PORTLAND, Oct. 31, 1876.

TO THE EDITOR OF THE OREGONIAN:

Tilden's complicity with Tweed in the election frauds of 1868 has been a subject of much comment during this canvass. What Mr. Greeley said about it when the frauds were still recent has been reproduced so often that it must soon be familiar to every one. In your paper of this date you allude to a phase of the subject which, however, is not so generally understood. Referring to the telegraphic report respecting the statement made by E. W. Stoughton, a prominent Democrat and member of the New York bar, to the effect that Mr. Tilden understood beforehand the character of the circular under which the stupendous frauds on the ballot-box were perpetrated on that occasion, you say:

"Mr. Stoughton is of opinion that it can be proved from the sworn statements of Mr. Tilden that the 'great reformer' knowingly allowed Tweed to issue the circular over Tilden's name, which has of late been denounced by the latter as a forgery."

I herewith submit these sworn statements of Mr. Tilden's, in order that yourself and the public here may judge them. Shortly after the great frauds were perpetrated they were investigated by the House of Representatives. Mr. Tilden was called as a witness. Being sworn by the congressional committee (Dec. 30, 1868), he was shown a copy of the circular purporting to have been issued by himself as Chairman of the Democratic State Central Committee, in which it was requested that early returns be sent in to Tweed, (to be used as a basis for stuffing the ballot-boxes in New York city); and he was requested to state what he knew of it. I give the material part of his answer, quoting the exact words:

A day or two *before the election,* I was in the committee-room at the Metropolitan Hotel, and I then *understood that a circular had been issued* asking for early election returns. It had been issued some time previously; by whom I do not know; but *I understood its purport from somebody. I saw on a table or shelf some circulars signed with my name,* but I did not read them, for I *understood* their contents. I presume they were the same circular.

Here is a denial of the authorship, but an admission that he *knew* of the existence of the circular; in fact he had "*seen* it and *understood* its contents." He made no objection whatever to this use of his name for the instigation and support of the collossal fraud. You will see, therefore, that Judge Stoughton's allegation of Mr. Tilden's knowledge of the circular before it was issued and before the election is not a matter of opinion at all. It is proved by Mr. Tilden's sworn testimony. In answer to another question Mr. Tilden said, being still under oath:

"I ought to add, perhaps, that the night of the election I was in the Manhattan club, a Democratic club; and that the answers to these circulars, *some of them addressed to me, some to Mr. Tweed,* were read during the evening to meetings at Tammany Hall and meetings at the club."

Thus, it appears from his own sworn statements, that he knew of the circular, that he was at the club in the evening to receive returns in reply to it, and that some of the answers to the circular were addressed to himself and some to Tweed. Is not his complicity established most conclusively by his own testimony?

His relations with Tweed were so intimate that confidential Democrats throughout the State, to whom the secret circular was sent, returned their replies indifferently, to Samuel J. Tilden and William M. Tweed.

If so infamous a circular were a forgery, issued without the "reformer's" knowledge or consent, why did he not seek the real author, and try to have the document suppressed, instead of consenting to have it sent out and meeting with Tweed and others in the evening to receive the replies to it?

Judge Stoughton certainly has not made a mistake.

School for Young Ladies!

MISS HELEN F. SPAULDING AND MRS. HENDERSON, both experienced and skillful teachers, have now in progress in this city an interesting and advantageous School for young ladies, both in English and Classical Studies. This School is on Sixth street, between Taylor and Salmon, at the residence of Mrs. Henderson, where everything connected with it is made homelike and interesting. Young ladies not wishing to take a regular course at seminaries, but desiring to complete some of the more important English studies, or review them, can have no more favorable opportunity than is afforded at Miss Spaulding's School. Such as wish can remain at home for study and attend the School only for recitation. The afternoons, under Mrs. Henderson, are given to the study of the languages, whether German, French or Latin, to such as desire to acquire them. And in all, we know of no school which we can more highly commend to the class of young ladies mentioned than this School, under the management of Miss H. F. Spaulding.

A CARD.

In answer to an article that appeared in the *Daily Evening Standard* of October 30, 1876, I have to say that I did go on board the *Kingdom of Sweden*, and had a right to do so when I boarded her.

I deny that I persuaded any of them, either officers or men, to leave the ship "by supplying them with the poorest kind of whisky," or that I offered them any kind of inducement to leave the ship. I deny that I boarded the *Dounelmont*. Both of these charges, as stated in the *Standard*, are false. Had I been guilty, as charged by the *Standard*, I could have been punished for violation of law. The captains of these ships know this, but do not resort to the courts, where they could obtain redress without purchase, but try to obtain it by a newspaper article inserted as an advertisement. That a mutiny occurring on board one of these ships they expect to explain to their agents and the public by this charge against me. JAMES TURK.

SEATTLE ITEMS.

Our correspondent at Seattle sends the following items under date of Oct. 30th:

Val. Willman, who has just served out his fine in the county jail, for keeping a lottery, stepped out a free man a few days ago, and is having a saloon fitted up for him on Mill street.

This (Monday) evening the Democratic candidates entertain an enlightened constituency at Yesler's hall. As is the custom of that party upon such occasions, a large amount of gunpowder is being wasted. John P. Judson, candidate for Congress, is the chief attraction.

The little stern-wheeler *Nellie*, owned by Messrs. Benj. Stretch and Robbins, has had bad luck ever since being launched. She ran on a "snubbing post" and stove several holes in her bottom, was hauled out on the gridiron and repaired, and on her next trip got on a bar in the Snoqualmie river, which was very high. The river has fallen since that time, leaving her high and dry.

To-day a large number of Seattleites were invited to take a pleasure excursion by Mr. Ackerson, of the Tacoma Mill Company, upon the new and elegant propeller *Tacoma*. About one hundred ladies and gentlemen availed themselves of his courtesy, and a most enjoyable occasion was the result. Capt. John Connick is master of the *Tacoma*. She is without doubt the finest steam tug on the coast, and can run sixteen knots per hour without the least strain.

A CARD.

NEW TACOMA, W. T., Oct. 29, 1876.

TO THE EDITOR OF THE OREGONIAN:

Permit me, through your columns, to say to the voters of Tacoma precinct, that rather than become a party to a contract by which one part of the Republican ticket is being sold out for the benefit of the other part, I most respectfully decline the nomination of justice of the peace of said precinct, and claim the right of an American citizen to vote and work in the coming election according to the dictates of my own conscience.

Very respectfully yours,

J. B. BINGHAM.

Captains and pilots will note the fact that Peter Wilhelm has fitted up two rooms for their especial use at the Fountain, corner Ash and First streets. English papers on file shortly and everything cosy.

In SOL'S RESTAURANT, Portland has got what it so much needed *a first class Restaurant*, where ladies and gentlemen can take their meals and be furnished with all the delicacies that this and the California market afford. The proprietors finding that they have not room enough for the accommodation of their patrons on their first floor are busy at work fitting up the second floor, containing six rooms, which they hope to have ready by the 10th of November. It is what it represents itself *a first-class Restaurant*, and the proprietors will spare no pains to keep it such.

W. L. ADAMS, M. D., A. M., LL. D., corner of First and Salmon streets, is curing the most inveterate chronic diseases of all kinds at a low price, by medicated, electric lightning cream baths, and by combining the German and French with the American improved practice, mixed with a little common sense. His treatment is, in the main, entirely original, and works almost miracles, as his numerous patients will attest. Is extraordinarily successful in treating female complaints.

Sore eyes speedily relieved. The worst form of piles cured, and the most malignant cancers eradicated root and branch without the use of the knife, or the money refunded.

FIRST PREMIUM HEALING SALVE.

Dr. Halpruner received the first premium at the State Fair for his patent healing salve and corn remedy. An infallible cure for cuts, burns, bruises, boils, felons, blood poison, white swelling, ulcers, sores, &c., also for corns and bunions. The salve is for sale by all druggists, price 50 cents per box, and manufactured by the Doctor only. Corner of Eighth and Market streets. The Doctor operates on Corns and Bunions as usual.

FINNEN'S HAVANA CIGAR STORE.

Opposite Strowbridge's Block, has on hand and for sale a large assortment of fine Cigars, Chewing and Smoking Tobaccos, the best, cheapest and largest assortment in the city. Call, judge for yourself, and be convinced that I give more satisfaction for your money than any other retail store here. 95 FIRST STREET.

SALEM, Oct. 30, 1876.

TO THE EDITOR OF THE OREGONIAN:

"What horrid weather!" is a stereotyped phrase in this section of the country at the present time, accompanied by the assertion, "Its just terrible dull since legislature adjourned," either of which is essentially correct. We go "sloshing" around in the mud regardless of consequences, swimming where we can't wade, and jumping over mud-puddles whenever compelled to. What, in fact, would "Webfeet" do were they as thin-skinned as are the residents of some of our elder sister States. Verily they would be compelled to stay indoors about six months of the year. But it takes more than rain to keep a native Oregonian girl within doors when duty or pleasure necessitates her facing the storm. It does one good to see

OUR OREGON GIRLS

Don their overshoes and waterproofs and start out in a blinding rain storm. Little they care for mud or rain. The city girls perhaps are more favored and can call a cab, but the country girls watch their chance and walk with commendable pluck. It has now been two weeks since the rain set in, and it has scarcely let up an hour at a time during the interval. Everybody is hoping for a cessation of hostilities, and threatening that another winter like the last will drive them out of the State, provided, of course, they could find a more favored spot beneath the sun, which, by the way, is extremely doubtful. The weather leaves us nothing to talk about outside of the political prospect, and

DEMOCRATS AND REPUBLICANS

Alike are deeply interested in the matter. We sometimes imagine that each succeeding Presidential canvass is more exciting than was the last, and that the strife is more determined. Never have we seen political circles so worked up in Oregon, or in Marion county at least, as they are just at the present time. Little else is talked about, at home or abroad, and voters, irrespective of party, are thoroughly aroused, and intend to a man availing themselves of the right of suffrage on election day. Our Democratic friends have been decidedly wary about betting on the general result until within the last week, since which time a few of them have plucked up sufficient courage to back their favorites with coin. They find no difficulty in having their coin covered, and considerable

MONEY WILL CHANGE HANDS

In this county over the result, be it what it may. The Republicans are thoroughly united in old Marion, and we confidently expect to give Hayes, Wheeler and Williams a cool five hundred majority in this county alone. Should other Republican counties do proportionately well Hayes and Wheeler will receive Oregon's electoral vote, and our State will no longer be put down as doubtful on the slate of either party. Eloquent speakers are doing excellent service in various parts of the county. The Democracy are not united in this section of the State, nor have they been since the recent Senatorial contest, and the fruits of their discord will be made manifest on election day. Dick Williams' election is generally conceded by even the Democracy of this county, and if Republicans will but do their duty on Tuesday week the State will go Republican by a handsome majority.

ANOTHER SCANDAL.

Salemites have had abundant food for gossip during the past few days in the sudden disappearance of two well-known married ladies who, with malice aforethought and evident premeditation, packed up their little bandboxes and took French leave of their doting husbands, who to-day mourn their loss. One of them went South as far as Albany, and took the return train for Portland, while the other boarded the train at Gervais and both parties are now supposed to be on the steamer bound for San Francisco. Their husbands meanwhile are pondering over disappointed hopes and unwashed dishes. The elopers are excellent dressmakers and will undoubtedly succeed in earning a respectable livelihood for themselves wherever they may fetch up.

CAPITAL NOTES.

W. A. Chapman and Miss Bonifon entertained us with several hours of magic last week, and gave one entertainment for the benefit of Mrs. J. M. C. Stuart, whose husband committed suicide a few days since. It netted her about $80. The party will show at Albany and Corvallis this week, and we cheerfully commend them to the public.

Robt. A. Miller is lying dangerously ill with the billious fever at the residence of Mr. Strong in this city.

Dr. A. M. Belt has returned home from an extended sojourn at Upper Soda in company with patients under his charge.

Dr. Richardson and wife have gone to California on a visit. They will be missed by their numerous friends in this city.

Mr. Akin, a well known flax dealer of New York State, writes his brother, now living in Jefferson, that he is now forming a colony to come out here in the spring and put in, cultivate and prepare for market 1,000 acres of flax.

Misses Eliza Miller and Sallie Clark are both lying ill at their residences in this city.

Rumor has said that Thomas Smith, the obliging proprietor of the Chemeketa Hotel, was about to leave us. We are pleased to announce, however, that such is not the case, and his legion of friends will find him at his old stand.

Ben Kelsey has moved his barber shop into the rooms formerly occupied by the Pioneer Oil Company, and the Backensto Bros. have moved into his old stand.

Rev. John Rosenberg, of Portland, is announced to occupy the pulpit of the Salem Episcopal Church on Sunday next.

Are we to have a bridge across the Willamette at this point is a question to be settled by the voters of this city at the next municipal election.

A. F. Wagner, Esq., lost a son about fifteen years of age by diphtheria on Thursday last.

There is considerable sickness in the city at the present time. Contagious diseases raging to no very limited extent.

The State printers are taking a rest preparatory to commencing work on the laws and journals during the ensuing week.

Lucky Queen mining stock is a much desired article on our streets at the present time, while the Capital mining stock is being disposed of at a rapid rate. Oregon gold and silver mines will yet create a sensation in the San Francisco stock board.

At a regular meeting of Willamette Engine Co. No. 1, held at the company's hall October 5, 1876 Chief Engineer J. H. Lyon was nominated for the office of Chief Engineer of the Portland Fire Department and the following resolutions unanimously adopted:

Resolved, That our fellow member and present efficient Chief Engineer J. H. Lyon is the unanimous choice of this company for Chief Engineer of the Portland Fire Department, and this company does hereby nominate him for such office.

CUT THIS OUT.

IT MAY SAVE YOUR LIFE.

There is no person living but what suffers more or less with Lung Disease, Coughs, Colds or Consumption, yet some would die rather than pay 75 cents for a bottle of medicine that would cure them. DR. A. BOSCHEE'S GERMAN SYRUP has lately been introduced in this country from Germany and its wonderous cures astonishes every one that try it. If you doubt what we say in print, cut this out and take it to your Druggist and get a sample bottle for a bit and try it. Large size 75 cents. Two doses will relieve you. Agents—Crane & Brigham, Wholesale Druggists, San Francisco.

The following report of the grand jury, presented in open court, Oct. 31, 1876, was filed, and by order of the judge, ordered spread upon the journal of the court:

IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF MULTNOMAH.

To the Hon. E. D. Shattuck, judge of the above entitled court: The grand jury of the county of Multnomah submit the following report of their labors as such grand jury duly empanelled and sworn at the October term of the circuit court of the State of Oregon in and for said county of Multnomah.

The grand jury have been engaged in their labors for ten days, and during that time have examined an immense number of witnesses, and as a result thereof they have returned into court sixteen true bills, and five of the cases hitherto held to appear by the several examining magistrates of the county, they have returned as not true bills; besides which a large number of cases have been examined that had not been hitherto examined into by any examining magistrate, and in which we have not deemed there was sufficient testimony to warrant the finding of true bills.

PUBLIC BUILDINGS AND OFFICES.

After having examined and disposed of the business presented for our examination by the district attorney, and also the several complaining witnesses, we have proceeded to inspect the various public buildings, institutions and offices in the county, with the following results:

CITY JAIL OF PORTLAND.

We found this institution under the charge of J. H. Lappeus, chief of police of the city of Portland, and in an excellent condition as regards cleanliness, and every regard paid to the comfort of the unfortunate inmates thereof that is consistent with their safe-keeping.

INSANE ASYLUM.

We can only repeat of the asylum what we have already said of the city jail, and add that, so far as we could judge from a single inspection, made at a time when the officers of that institution could have had no knowledge of our coming, we have no hesitancy in saying that the insane asylum, under charge of Dr. J. C. Hawthorne, is an institution that Multnomah county may well be proud of.

POOR FARM.

We have visited the Poor Farm and examined several witnesses in regard to it, and have to report of it that under the charge of Mr. Cleghorn, it appears to be all that it is intended it shall be by the citizens of this county, who have so cheerfully and abundantly given so many thousands of dollars of their money for its support, and the relief of the poor unfortunates who are there cared for from time to time.

OFFICES OF CLERK, TREASURER AND SHERIFF.

We have visited these offices and they all appear to be kept in good order, the records thereof correctly and neatly kept, and the several officers therein attentive to the public in their visits to the several offices on business.

COUNTY JAIL.

We visited the jail of this county, under the immediate charge of Mr. Eli Morrill, jailer, and while we found it kept as clean as it is possible to keep it, and while Mr. Morrill appears to exert every effort consistent with the safe keeping of the prisoners to make them comfortable and preserve their health, yet on account of the jail being situated partly under ground, it is impossible to keep it in any fit condition to confine human beings in, and in our opinion the county should immediately provide some more healthy and comfortable jail. This has ended our labors, and we respectfully ask to be discharged.

JOHN DOLAN,
Foreman of the Grand Jury.

Forestalling Disease.

When we see that death is so often the penalty paid for a fatuous disregard of the symptoms of approaching disease, should we not be warned against the folly of neglecting defensive measures when called for in our own case? Assuredly we should, and upon the first manifestation of ill health or decay of physical vigor, seek the aid of medicine. The fortifying influence upon the system of Hostetter's Stomach Bitters entitle that medicine of many virtues to the highest consideration as a preventive, as it cannot be too strongly recommended as a means of arresting the progress of malarious fevers, dyspepsia, constipation, liver complaint, kidney and bladder troubles, gout, rheumatism, and other disorders which in their incipiency are far more easily overcome than in their maturity—albeit, the great alterative has repeatedly demonstrated its power to vanquish them in their worst phases.

Again the Wheeler & Wilson Sewing Machines triumph over the world. The Centennial Commission have officially announced the awards and decreed for the New Wheeler & Wilson Machine *two Diplomas of Honor and two Medals of Merit*. This is a double victory, and the highest award which it was in the power of the Centennial authorities to bestow. No other sewing machine received such a recognition. Agency, 95 Third street.

NOTICE.

The undersigned in taking leave of Portland returns his sincere thanks for the liberal patronage that has been bestowed, and would bespeak for his successors a continuance of the same.

Both DRS. BARBER & NICKLIN, are gentlemen in every way competent and worthy of any confidence that may be placed in them, and as such I can conscientiously recommend them to my former friends and patrons.

I. H. HATCH.

MRS. DR. S. A. OWENS.

Office and residence, east side First Street, between Yamhill and Taylor. Special attention given to Women and Children complaints. Also gives Medicated Vapor Baths in treating Rheumatism and Chronic Diseases.

An Irishman called at a drug store to get a bottle of *Johnson's Anodyne Liniment* for the Rheumatism; the druggist asked him in what part of the body it troubled him most. "Be me soul," said he, "I have it in ivery hool and corner er me."

For loss of cud, horn ail, red water in cows, loss of appetite, rot, or murrain in sheep; thick wind, broken wind, and roaring, and for all obstructions of the kidneys in horses use *Sheridan's Cavalry Condition Powders*.

DO NOT, IF YOU ARE SO UNFORTUNATE as to have bruised, sprained, cut or burned yourself, use an astringent lotion or liniment, but bathe the hurt part with a solution of GLENN'S SULPHUR SOAP which is far better.

Unfading Loveliness

Belongs only to the immortals, but whoever uses the fragrant SOZODONT can at least defy time to injure one of the elements of beauty, a good set of teeth.

LYON'S KATHAIRON makes beautiful, glossy, luxuriant hair; prevents its falling out or turning gray. It has stood the test of 40 years. Is charmingly perfumed, and has no rival.

HAGAN'S MAGNOLIA BALM preserves and restores the complexion; removes freckles, tan and sallowness; makes the skin soft, white and delicate. Its application cannot be detected.

FINANCE AND COMMERCE.

Financial.

TUESDAY EVENING, Oct. 31, 1876.

[illegible] sold in New York 110½.

Legal Tenders in Portland—buying 90¼; selling 91¼.

Silver—Trade dollars, 92c; other coins, 95@96c.

Coin Exchange on San Francisco par.

Coin Exchange on New York ½ per cent. premium.

Telegraphic transfers on New York 1 per cent premium.

The week opens with a very fair degree of activity in financial and trade circles, and the aggregate of transactions is quite large. A slight advance in the price of silver caused quite a rush of that coin upon the brokers and other buyers. Sales of half dollars was made at 4 per cent. discount, while trades were sold at 95 cents. It transpires that at this time there is a very large proportion of silver in the market, and additions to the amount are being made by each steamer from San Francisco. A good deal is being used in the wheat trade, but still the demand from that direction is not sufficiently extensive to absorb the surplus accumulating here.

The supply of available funds continues quite ample to meet the demands of legitimate trade, and there is a very light speculative call at present. The wheat export trade constitutes the principal requirement, and as this is largely supplied by San Francisco and Europe, the effect of the demand on the local market is not so much felt as is generally supposed.

An exchange from the East, referring to the new order of things in financial matters now generally practiced by capitalists, intimates that there was a time in the anti panic years when capitalists of enterprise and hopefulness were found who hesitated not to invest in the development of new and attractive patents, in agricultural implements, in furniture, in stoveworks and in building new railroads, etc., etc. Speculations of this kind of property have also been in abeyance, during these three long-to-be-remembered years. Now, when business men are becoming more hopeful and many think they see trade and commerce reviving, few venture to risk anything beyond the immediate demands of their own line of business, except in the actual staples of food. Hence the present limited demand for money and the comparatively low rates of interest. In the hope of the revival of every variety of interest the cautious and careful speculator thinks best only to invest his funds in what the people must have to insure an actual existence. This is a wisdom gained by experience; and yet it would be a faith based on the actual facts of former times that the surest means of accumulating a large fortune is to purchase valuable real estate when it has fallen to its lowest figures. Men who are now speculating in grain know this, but the latter commodity represents the "nimble sixpence" while the real estate looms up in the distant future as the "slow shilling."

Domestic Produce.

Of nearly all varieties is in active demand at firm prices. The trade is generally brisk, and the rates prevailing rather above the average of former seasons, though there are some exceptions to any statement made as to the general condition of the market. Wheat, the principal staple at this time, on change, is not coming forward very freely, though a good many holders and speculators are on the market offering, or rather trying, what prices can be obtained for grain which is yet in the farmers' hands or stored in the various warehouses in the interior of the State. The receipts here are not as large as last week, though the loading of ships on the berth is progressing quite encouragingly. The latest European news concerning the markets for this cereal has affected the local trade but little, as there seems to be nothing imminent to cause either a depression or appreciation in rates. The war-cloud which for a few days seemed to threaten the Old World appears to have grown small, and it is now regarded as comparatively insignificant as far as its effect upon the business markets are concerned, and we need not [illegible] the [illegible] of our European brethren to be our stepping stones to [illegible] the war news from Europe will not [illegible] the price of our wheat to any [illegible] until other nations than Russia and Turkey become seriously involved, an event which does not [illegible] at all likely at present. Prices here are, however, [illegible] at the rates prevailing last week, and while it is predicted that no advance will take place in the near future, it is not regarded as quite as probable that no decline will occur.

The flour market is steady at our quotations, and though receipts are quite up to the average in point of volume, the stock ware kept well down by the very fair local trade, and an encouraging demand for shipment. Oats from ordinary to fair feed quality are reaching the market in considerable quantities, and though prices are low, even at an advance of 2½c this week, the trade is tolerably active. Shipments are made in limited quantities, the bulk of this cereal offering being of rather inferior quality, not fit for grinding and only bringing medium or low prices in the San Francisco market. Hay and mill feed are in fair supply and steady at the figures quoted. Dairy products are in demand and prices firm. Provisions are scarce, and choice bacon is much needed at 16 cents per pound, but anything like heavy receipts would soon depress the market, as the demand is principally for the home trade. Dried and green fruits are abundant and prices vary greatly, especially for the latter, dried apples commanding generally about 5@6 cents ℔ lb. Other products are unchanged.

Shipping Intelligence.

The steamship Geo. W. Elder, from San Francisco, reached this port at 9 o'clock this morning.

The barks Kingdom of Sweden and the Frederic, have completed their cargoes and will go down the river to morrow.

The barkentine Tam O'Shanter has her cargo well nigh discharged.

The Br. ship Roxburghshire is at McCraken's wharf preparing to discharge her ballast.

OBJECTS.

This Savings Bank has been formed at the desire and under the auspices of thirty-one gentlemen, citizens of Oregon and Washington Territory who have become Stockholders therein along with certain other gentlemen in Scotland to supply a want hitherto much felt, namely an Institution where similar to those in California, the working, farming and other classes of Oregon and Washington Territory may from time to time deposit their various savings along with the Bank's own capital for investment in Oregon and Washington Territory (to which the Bank's operations are limited) secured from Mortgages over City Properties, Farming and other Lands for the purpose thereby of assisting to develop the industries of the North Pacific Coast.

The Bank's Directors and Officers in Oregon having had considerable experience in finance and real estate securities, their policy will be to guard depositors' moneys and the Stockholders' capital by loaning only on first class securities, high interest being a secondary consideration. The Bank does not therefore seek to employ its funds in a commercial banking business, confining its operations strictly to those securities with which its Directors are familiarly acquainted, such as real estate loans, advances on bonds, assignments and similar securities which are not fluctuating in value; hence no loans will be made on Promissory Notes alone, or Bills of Exchange and such like.

Security to Depositors.

The security for repayment of Depositors' moneys is two-fold:

1st. Not only the mortgages, assignments, bonds and other pledges on which the Bank's deposits are carefully loaned and the real estate secured thereby, which must be located in Oregon and Washington Territory; but also,

2d. The Bank's own $300 000 capital specially pledged for the safety of depositors, in order that all losses (if any) shall be made therefrom, thus forming a double security for depositors' moneys.

No charge for entrance fee or pass books.

Deposits received from $2 50 and upwards.

Rates of interest on application.

Hours, from 9 A. M. to 3 P. M.

Certificate of Incorporation, Constitution, Articles of Association, Regulations and By laws for depositors, may be seen at the Bank's office.
